

## Jenner Solar Project Update

C&B Alberta Solar Development ULC (CBA), a wholly owned subsidiary of Canadian Solar Inc., is developing the Jenner Solar Project. At CBA we believe in keeping our neighbours and stakeholders informed and up to date on our Projects. We are sending you this newsletter to provide an update on the Jenner Solar Project, located on the SW 1-21-9 W4M, approximately 4 km east of the Hamlet of Jenner, as shown below.

Our stakeholder engagement efforts commenced in May 2016 and will be ongoing through the pre-construction, construction and operation phases of the Project. The initial Alberta Utilities Commission (AUC) power plant approval was received for the Project in June 2017. Since then, we have made minor amendments to our project plan, including minor equipment changes and a schedule update. The new proposed equipment is as follows:

- Approximately 87,000 solar modules
- Nine inverter and transformer stations

As a result of these modifications, CBA is required to submit a Letter of Enquiry (LOE) to gain approval from the AUC for the changes. CBA intends to submit the LOE in Q2 2019.

*To learn more about the application and review process, please contact:*

**ALBERTA UTILITIES COMMISSION (AUC)**  
780-427-4903 (Toll-free by dialing 310-0000 before the number)  
E-mail: [consumer-relations@auc.ab.ca](mailto:consumer-relations@auc.ab.ca)

## Interconnection Application

In order to connect to the FortisAlberta distribution grid, CBA requires approval from the AUC. CBA intends to submit the interconnection application to the AUC in Q4 2019, after the LOE is approved.

## Project Schedule

CBA would also like to provide stakeholders with an updated project schedule as a result of these changes. The updated project schedule is as follows:

Stakeholder Consultation	Ongoing
AUC Power Plant Approval Received	June 2017
Submit Letter of Enquiry for Amendments	Q2 2019
Anticipated AUC Approval	Q3 2019
Interconnection Application	Q4 2019
Construction	Spring 2020
In Service Date	Q4 2020
