

## Jenner Solar Project Update

CS Jenner Solar GP Inc. (“Jenner Solar”), a wholly owned subsidiary of Canadian Solar Inc., is developing the Jenner Solar Project. At Jenner Solar we believe in keeping our neighbors and stakeholders informed and up to date on our Projects. We are sending you this newsletter to provide an update on the Jenner Solar Project, located on the SW 1-21-9 W4M, approximately 4 km east of the Hamlet of Jenner, as shown below.

Our stakeholder engagement efforts commenced in May 2016 and will be ongoing through the pre-construction, construction, and operation phases of the Project. The initial Alberta Utilities Commission (AUC) power plant approval was received for the Project in June 2017. Since then, we have made minor amendments to our project plan, including minor equipment changes and a schedule update. The new proposed is as follows:

- New models of inverter and transformer stations
- Construction Completion date to August 2021
- Connection location change

As a result of these modifications, Jenner Solar is required to submit a Letter of Enquiry (LOE) to gain approval from the AUC for the changes. Jenner Solar intends to submit the LOE in Q3 2020.

## Interconnection Approval

In order to connect to the FortisAlberta distribution grid, Jenner Solar received the interconnection approval from the AUC in November 2019.

## Project Schedule

Jenner Solar would also like to provide stakeholders with an updated project schedule because of these changes. The updated project schedule is as follows:

Stakeholder Consultation	Ongoing
AUC Power Plant Approval Received	June 2017
Submit Letter of Enquiry for Amendments	Q3 2020
Anticipated AUC Approval	Q3 2020
Interconnection Approval	Q3 2020
Construction	September 2020
In Service Date	Q4 2020
